

Dear Auntie Bernice,

Thank You for teaching me. I remembered the time when I first joined your centre, I hated maths but you gave me the confidence to get 92/100 for Math, P2.

This is when I tried my to get good marks for English. You gave me extra classes to improve my English and let me borrow storybooks to improve my English. Now, I am moving on to my SA2 and I will prove to her that her time she used to teach us is not going to waste.
